Re: HPV Challenge Program, AR-201
Ethylene Carbonate
CAS Registry Number 96-49-1

Huntsman Petrochemical Corporation is pleased to submit the enclosed Test Plan and Robust Summaries for Ethylene Carbonate, CAS Registry Number 96-49-1 as part of our commitment to the EPA High Production Volume Challenge Program, AR-201.

Based on a review of available SIDS data elements, including physical/chemical properties and results of biological and toxicological studies, we recommend that a measure of stability in water according to OECD Test Guideline 111 be conducted to complete the dossier.

Please contact me at 281-719-4754 if there are questions relating to this submission.

Sincerely yours,

Donald A. Lederer, Jr.
